REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: as stated in the previous office action, the magnetic field flux density of at least 0.1 T is not explicitly stated in the prior art. In addition, for Claim 7 (currently amended), the prior art cited (Petisce 5,000,772) in the first office action states a magnetic field of 2000 Gauss (0.2T) is used to enhance polymerization of a coating material. This falls within applicant's claim of the magnetic field having a magnetic flux density of at least 0.01 T. However, Petisce (5,000,772), Wilson, Robinson, Nygard, and Chawla fails to disclose an electric field strength of at least 0.1 KV/mm and a magnetic field of at least 0.01T. Therefore, the claims as presently amended appear novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
